

Scope Expands Healthcare Experts Team, Enhances Medical Content Services Offering

Chennai, India, September 05, 2017: Scope e-Knowledge Center (Scope), a leading provider of knowledge services and a Quattro Global Services company, announces the expansion of its medical content services, and supporting team of subject matter experts.

The expansion is in line with Scope's strategy to offer best in class content and knowledge services to medical and healthcare information providers.

New offerings include:

- Real time monitoring of physician discussion forums
- Developing learning and training rationales for medical education providers
- Medical coding as per ICD 9 &10, SNOMED CT, and MeSH
- Development of order sets
- Creation of drug and disease monographs
- Pharmacovigilance narrative writing
- Deep indexing of medical images
- Medical records summarization

Tram Venkatraman, President of Scope e-Knowledge Center said: "Scope is committed to supporting medical information providers with scalable, value added solutions that enrich and expand their content offerings. This increase in the number of subject matter experts in diverse specialties and the concomitant growth in content creation capabilities, demonstrates our commitment to offer value to medical information providers worldwide."

About Scope e-Knowledge Center
